THE TEMPEST™ TABLE TOP TORCH

Packing List

- Table Top Torch
- Snuffer (flame extinguisher)
- Stainless-Steel Fuel Can
- Instruction Sheet

SAFETY WARNINGS

 WARNING	
	<ul style="list-style-type: none">• <u>DO NOT USE FLAMMABLE LIQUIDS, ONLY USE GELLED ETHANOL BASED FUELS</u>• <u>ALWAYS FOLLOW FUEL MANUFACTURER'S HANDLING INSTRUCTIONS</u>• <u>NEVER BLOW DIRECTLY ON THE FUEL, ALWAYS USE THE 'FLAME SNUFFER' PROVIDED TO EXTINGUISH THE FLAME</u>
<p>HOT GLASS WILL CAUSE BURNS DO NOT TOUCH GLASS UNTIL COOLED NEVER ALLOW CHILDREN TO TOUCH GLASS</p>	

- Keep away from children and pets.
- Always burn in a well ventilated area.
- Hot glass will cause burns. Do not touch glass until cooled. Never allow children to touch glass.
- Do not use flammable liquids, only use gelled ethanol based fuels. Never add anything to the fuel gel.
- Always follow fuel manufacturer's handling instructions
- Use the included "Flame Snuffer" to extinguish the flame. Do not blow on flame or use liquid to extinguish.
- Do not re-fill single-use, pre-packaged fuel can (unless specified from manufacturer).
- Carefully light gel with a fireplace or grill type lighter ("lighter wand"). Do not light from top of torch.
- Never leave a burning Tempest™ Table-Top Torch unattended.
- Never burn Tempest™ Table-Top Torch on or near anything that can catch fire.
- Do not transport the torch while burning. Allow torch to cool completely before moving or re-fueling.
- Tempest™ Table-Top Torch may be hot, handle with care.
- Do not place your hand, face or other body part above the torch. This area becomes hot and may cause burns.
- Do not remove fuel can until torch has fully cooled. Never pour fuel into open flame. Do not re-fuel in dark area.
- Never spray any scents, perfumes, or other flammable materials near the open flame.

Fuel

This torch may be used with one of the following fuels:

- (1) Use the included stainless steel re-usable container with:
 - (a) OzoFire™ Formula 4 (F4) by Fuel Barons – see www.fuelbarons.com.
 - (b) Forrest Paint gelled fuel (part # 80M002B24) - see www.forrestpaint.com or your dealer.
- (2) Forrest Paint gelled fuel in a can (part # 80M002) - see www.forrestpaint.com or your dealer.

Do not use any other fuel in this torch - see www.tempesttorch.com for updated details on fuel availability.

Cleaning

We recommend cleaning the glass surface with glass cleaner and a soft cloth. The steel surfaces may be cleaned with a mild cleaning solution and soft cloth.

Preserving the Appearance of Your Torch

This torch is made of stainless steel and powder-coated materials to insure a durable finish indoors or outdoors. When not in use, store the torch in a protected location to maintain its appearance.

THE TEMPEST™ TABLE TOP TORCH

5 EASY STEPS FOR COMPLETE OPERATION

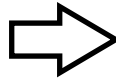

Place the fuel can into the fuel can holder. Be careful not to spill the fuel. CAUTION: REMOVE PAPER LABEL FROM FUEL CAN BEFORE PLACING INTO HOLDER (if applicable).

"Lighter Wand"
(not supplied)

Once the fuel can holder is locked into place the flame will automatically spiral upwards. Close the front loading door. DO NOT CARRY OR MOVE TORCH WHILE BURNING.

This torch may be used with one of the following fuels:

- (1) Use the included stainless steel re-usable container with OzoFire™ Formula 4 or Forrest Paint 80M002B24 gelled ethanol based fuel.
- (2) Forrest Paint gelled fuel in a can (part # 80M002).

To load fuel can, open the fuel loading door using both hands. Press and hold down the silver acorn nut on either side of the fuel can holder with one hand while you slide the fuel can holder tray out of the base with the other hand.

Push the spring loaded fuel can holder down and in half way. Light the fuel with a lighter wand (not supplied). Once lit, push the fuel can holder all the way into the torch base.

NOTE: When lighting a partial can of fuel a "lighter wand" comes in handy. Always open the fuel loading door when re-lighting.

The flame snuffer tool is stored in the torch base. Position the tool vertically so it slides between the glass panels. Turn the tool sideways to cover and extinguish the flame. Replace the flame snuffer tool to the torch base after use.
